

Student Personal Property Insurance

Gould Academy strongly recommends that all students be enrolled in the personal property insurance program offered through National Student Services. This program will insure, at a low deductible, expensive personal items such as clothing, computers, laptops, cameras, musical instruments and athletic equipment against fire, theft or accident. Many of these items are items that students carry from place to place, both at and away from Gould, and can, therefore, be particularly prone to theft. ***Please understand that Gould Academy cannot be responsible for students' personal property and will not be able to compensate families for the damage or loss of personal items arising from any cause whatsoever.***
